Admission planning checklist

Six stages to organise your application. Use your university's instructions to confirm requirements, order and deadlines.

01

Choose your course

☐ Reviewed

Save your course's current call. Ask the university to confirm your category and qualification requirements.

02

Prepare documents

☐ Reviewed

Gather identity, qualification and academic records. Check which translations, legalisation and verification evidence are accepted.

03

Submit applications

☐ Reviewed

Track the university application, Universitaly pre-enrolment (if needed) and admission-test registration separately.

04

Take the entry test

☐ Reviewed

Confirm the test format, date, location, ID and payment rules. Keep the registration receipt.

05

Follow your ranking

☐ Reviewed

Check the ranking and the precise action required to accept a place. Record the response deadline.

06

Enrol and arrive

☐ Reviewed

Complete university checks and fees. Where applicable, coordinate visa and residence steps with the responsible authorities.

Keep a confirmation for every submission.

Pre-enrolment, test registration and university enrolment are separate tasks.

Your application, organised.

Course details, deadlines and document checks.

DOCUMENT FOLDER

- [ ] Identity and academic records requested by your university
- [ ] Translations / legalisation / qualification evidence, where requested
- [ ] Required language evidence
- [ ] Financial records for the relevant fee or scholarship procedure
- [ ] Visa, accommodation and health-cover evidence, where applicable
- [ ] Submission confirmations and receipts

Ask which evidence is accepted before ordering certifications. University admission or pre-enrolment does not guarantee a visa.
